Why Sponsor?

BUILD BRAND AWARENESS

LearningSCAPES, the annual Association for Learning Environments (A4LE) event brings together a concentrated network of nearly 1000 national and international educational design professionals, policymakers and program leaders dedicated to advancing the field of education environments and improving the lives of children and families.

Our attendees come seeking professional development, as well as new opportunities to extend and strengthen the reach of local and federal design networks. With four days of general sessions, panels and workshops, and school tours, attendees are constantly gaining knowledge and skills, sharing multiple practices and networking with educational design professionals from around the world.

A4LE provides a unique opportunity for conference partners to enhance their brand recognition, engage with attendees about their services and provide collateral for continued post-conference engagement and learning.

A4LE is an ecosystem built for attendees, speakers and sponsors alike to impact change, grow professionally and evolve into new areas, networks and systems.

THOUGHT LEADERSHIP AND DECISION MAKERS

A4LE brings together national and international leaders, policymakers, educational design professionals, higher education institutions and early childhood training organizations all under one roof to discuss vital issues facing the field.

MAJOR INFLUENCERS ATTEND

Our event is custom-designed for educational design professionals, influencers, policymakers, facilities managers and practitioners who are involved in delivering quality education services. A4LE attracts local, state and federal policymakers, national and international program leaders, top training organizations and education providers. The boutique structure of the A4LE's interactive sessions, networking and leadership skill development draws early education and higher education administrators, teachers, legislators and business leaders – who understand the importance of the public and private impact quality education has in communities throughout the U.S. and the world.

The screenshot shows a website layout with a navigation bar at the top containing 'News', 'Health', 'Science', 'Style', 'Tech', 'World', 'Cooking', and 'Entertainment'. The main content area features an article titled '“Hangry” Has Officially Made It Into the Dictionary' with a sub-headline 'Merriam-Webster’s word of the year has given the informal adjective the royal nod.' Below the article is a photo of hands holding a burger and fries. To the right of the article is a 'WHAT'S COOKING' section. The ad placements are overlaid on the page: a large green box at the top, and a yellow box on the right containing two smaller green boxes.

Retargeting Ads

How does it work?

Step 1

An internet user visits the A4LE website

Step 2

The user exits the website

Step 3

Your ad will be displayed on other websites the user visits

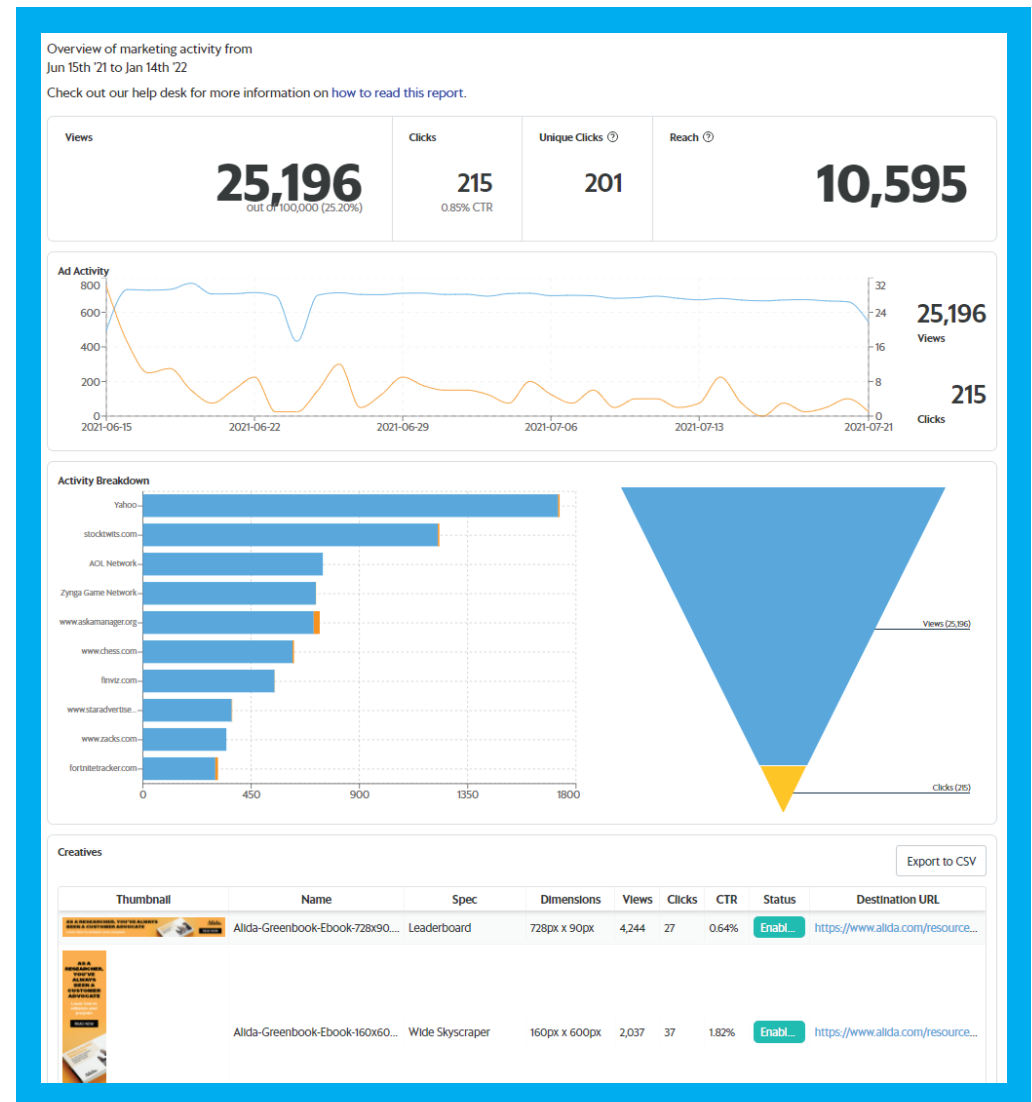

Your ads will appear on multiple major websites and mobile apps, following A4LE website visitors wherever they go.
